SUMMARY

Full Stack Developer focused on building modern, responsive web applications using the MERN stack. Experienced in developing frontend interfaces with React and Tailwind CSS, building RESTful APIs with Node.js and Express.js, and working with MongoDB for data management. Hands-on experience with authentication, real-time communication, state management, API integration, and application deployment. Interested in writing clean, maintainable code and continuously expanding full-stack development skills.

SKILLS

Frontend

React, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3, Responsive Design

Backend & Database

Node.js, Express.js, MongoDB, Mongoose, REST APIs, Socket.IO, Authentication & Authorization

Tools & Deployment

Git, GitHub, Postman, Vercel, Render, API Integration, Debugging

PROJECTS

My Portfolio – Personal Developer Portfolio

04/2025 – Present

<https://hasib-dev-portfolio.vercel.app/>

Designed and developed a responsive personal portfolio using **React** and **Tailwind CSS** to showcase skills, projects, and development work.

- Implemented reusable components, smooth navigation, responsive layouts, animations, and a contact form with EmailJS.

Smart Chat – Real-Time Chat Application

03/2025 – Present

<http://smart-chat-app-fronend.vercel.app/>

- Built a full-stack real-time chat application using **MongoDB**, **Express.js**, **React**, **Node.js**, and **Socket.IO**.
- Implemented authentication, group conversations, real-time messaging, message filtering, and an important-user/message system.

PlayIt – Full-Stack Music Streaming Platform

02/2025 – Present

<https://playit-fronend.vercel.app/>

- Developed a Spotify-inspired music player using the **MERN stack**, featuring song playback, albums, search, and dynamic music content.
- Built a dedicated admin panel for managing songs and albums, with backend APIs and cloud-based media integration.

<https://mern-blog-app-fronend.vercel.app/>

01/2025 – Present

<https://mern-blog-app-fronend.vercel.app/>

- Built a full-stack blogging platform using **React**, **Node.js**, **Express.js**, and **MongoDB** with user authentication and post management.
- Implemented post creation, editing, deletion, image uploads, individual post pages, and a responsive UI with **Tailwind CSS**.
